**MEMO TO:** HOPE Waiver Medicaid Providers  
**MEMO FROM:** Yvette Thomas, Director, Division of Long Term Services & Supports'  
Department of Human Services (DHS)  
**RE:** Obtaining ICD-10 diagnosis codes  
**DATE:** June 25, 2018

Due to policy changes, LTSS Specialists no longer have access to ICD-10 diagnosis codes; therefore, effective June 1, 2018, LTSS Specialists will no longer include ICD-10 diagnosis codes on Authorizations for Services. An ICD-10 diagnosis code continues to be a required field on the CMS1500 Medicaid claim form. Providers may obtain the ICD-10 diagnosis code utilizing one of the following methods:

1. Contact the diagnosing physician for an appropriate ICD-10 diagnosis code to include on the CMS 1500 claim form.
2. Continue to utilize an ICD-10 diagnosis code that was previously provided and include on the CMS 1500 claim form.
3. Utilize a generic ICD-10 diagnosis code from the table below to include on the CMS 1500 claim form. These ICD-10 codes in the table below may be applicable to the services that are being rendered. This is not an exhaustive list, and should not be interpreted as the only codes available for Providers to bill.
